Certifications

Tata Group

Data Visualisation: Empowering Business with Effective Insights (Forage)

2026

- Completed a job simulation focused on creating business dashboards and communicating data-driven insights for executive stakeholders.
- Performed data visualization tasks and presented analytical findings to support business decision-making.

Projects

Drainage Management System | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

GitHub

- Developed a web application that allows citizens to report damaged or leaking drainage systems by uploading images and location details.
- Implemented user authentication, complaint registration, and complaint tracking using Node.js, Express.js, and MongoDB.
- Designed an admin dashboard for municipality authorities to monitor, manage, and resolve reported complaints efficiently.

Blood Donor Connect | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

GitHub

- Built a full-stack blood donation platform connecting donors and recipients during emergencies.
- Implemented secure donor registration, login authentication, and MongoDB database integration.
- Designed responsive user interfaces and RESTful APIs for efficient donor data management.

Personal Portfolio Website | HTML, CSS, JavaScript

GitHub

- Designed and developed a responsive portfolio website showcasing projects, skills, education, and contact information.
- Created a modern, mobile-friendly interface with smooth navigation and clean UI using HTML and CSS.
- Deployed the portfolio using GitHub Pages for public accessibility.
